LUXURY CABINS

UNA EXPERIENCIA ÚNICA

VIBE LUXURY CABINS

## Welcome

We want your stay at VIBE to be unique, and to achieve that, we are here to address any small queries or provide recommendations that may arise during your stay.

Our goal is for you to fully enjoy the experience, and for that, you know that you can reach out to us at any time, whether it's for questions about our facilities or suggestions about activities and places of interest in the area.

We are always at your disposal to assist you and make your stay at VIBE unforgettable.

We hope you have a wonderful stay and create special moments in our cabins!

### WIFI PASSWORD

You will find it in the cabin's dossier

Peace and nature, all in one place.

01

## Estate

To respect the privacy of our 3 accommodations and, at the same time, fully enjoy the corners and walks of our estate, we recommend avoiding walking around the front of the cabins.

To the right of the three cabins, you will find a beautiful and charming pathway that will lead you to enjoyable spots, such as the bonfire area, hammocks, the hanging swing, the platform, and numerous delightful corners of our forest.

02

At VIBE, our pets are the first guests, but we also share this beautiful environment with other animals.

On numerous occasions, families of deer descend from Monte Cincho to visit us, so it is essential to be responsible with our pets, especially when walking around the estate.

Pet friendly

02

## Pets

Respecting wildlife and ensuring the safety of all the animals that inhabit here is a priority for us.

Our cabins have been meticulously designed, and lighting is no exception, though at times, it may seem a bit intricate.

03

03

## Illumination

### Outdoor Lights

These lights are activated from the exterior porch. Simply turn on the corresponding switch to illuminate the patio.

### Illuminated Windows

The windows have an LED strip regulated by a switch located to the right of them. To turn on or off the LED strip, simply give the switch a quick tap. If you want to adjust the light intensity, hold down the switch, and the brightness will change until you reach the desired level.

04

## TV Cabinet

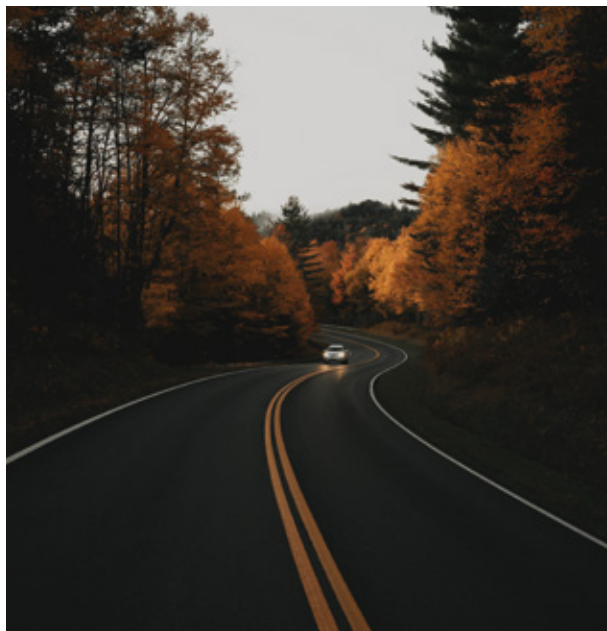

In our cabins, the television is placed on the furniture near the bed.

If you wish to change its location and place it in front of the bed, you can do so easily.

To raise and lower the screen, simply hold down the corresponding button.

05

## Parking

To provide you with the utmost comfort during your stay, we offer the option to bring your vehicle close to the cabin upon arrival.

However, to ensure the well-being of all our guests and maintain a harmonious atmosphere, we kindly ask that once you've arrived, you park your vehicle in the designated parking space specifically assigned to your cabin.

Each parking space is clearly marked with the name of the corresponding cabin, making it easy for identification.

Earth, Water, and Air
